فهرست

۱	پروتز پرایمری استاندارد Primary knee System
۲	پرایمری با پلتفرم موبایل Mobile Platform System
۳	ست جراحه پرایمری Columbus Streamlined Complete Set
۵	پروتز زانو CCK Revision System CCK Option
۶	ست جراحه CCK Columbus Revision Instruments
۷	پروتز زانو Hinged Hinged Knee System
۸	ست جراحه Hinged Aesculap Enduro Instruments
۹	توتال هیپ (استم) Total Hip Arthroplasty
۱۰	توتال هیپ (کاپ) Total Hip Arthroplasty
۱۱	تعویض مفصل بایپولار Bipolar Hemiarthroplasty

Suitable solutions for different patient needs

Mobile platform system offering advantages in wear and kinematics

NQ401 Columbus® Streamlined Universal instruments

NQ404 Columbus® Streamlined Tibial trial instruments

NQ402 Columbus® Streamlined Tibial preparation instruments

NQ406 Columbus® Streamlined Complementation Set Manual instruments

NQ403 Columbus® Streamlined Femoral preparation instruments

NQ407 Columbus® Streamlined Complementation Set IM alignment

NQ408 Columbus® Streamlined Complementation Set Tibial preparation sizes TO & TO+

NQ414 Columbus® Streamlined Complementation Set Soft tissue management

NE296 Columbus® Streamlined Complementation Set Tibial trial instruments RP

NO415 Columbus® Complem. Tibia instruments UCR

NQ435R Tray This Brooch NS199R
NS190R T001a NS190R T302a This obelisk holder?

Precise modularity in revision surgery

1- General Instruments (NQ601) – Top Tray

2- General Instruments (NQ601) – Bottom Tray

3- Manual Femur Instruments Tray (NQ602) – Top Tray

4- Manual Femur Instruments Tray (NQ602) – Bottom Tray

5- Tibial Preparation Instruments Tray (NQ603) – Top Tray

6- Tibial Preparation Instruments Tray (NQ603) – Bottom Tray

7- Femoral Preparation Instruments Tray (NQ604)

8- PS PE Insert Trial Instruments Tray (NQ605)

9- Femoral Trials Left Instruments Tray (NQ606)

10- Femoral Trials Right Instruments Tray (NQ607)

11- Tibial Hemi-Augment Trial Instruments Tray (NQ608)

12- Cemented Stem Preparation Instruments Tray (NQ609)

13- Cementless Stem Preparation Instruments Tray (NQ610)

14- Cementless Trial Stem Instruments Tray (NQ610)

15- Patella Preparation Instruments Tray (NQ611)

16- Tibial TO and PS PE Insert Instruments Tray (NQ612)

Safety for stable conditions in hinged implant revisions

NP352 | Femurbox Präparation

Siebeinsatz für NP304

NP270 | Probeaugmente

Siebeinsatz für NP270

Hip stem systems

Metha®
Short stem – Evolving the State of Arthroplasty

Excia®
Stem system – for all less invasive surgical hip approaches

Excia® T
Stem System – Minimal invasive, conical & trochanter-preserving

CoreHip®
Stem system - Indication competence

TrendHip®
Stem system – Combining traditional features

TRJ®
Hip stem – Trochanter retaining joint replacement

Bicontact®
Stem system – Bone preservation. For years to come

Prevision®
Revision stem system – Multiple modular & monobloc options

Acetabular cup systems

Plasmafit®
Cementless acetabular cup system

Plasmafit® Dual Mobility
Modular dual mobility articulation

Plasmafit® Revision
Cementless acetabular revision cup system

Structan®
Augments for acetabular revision system

Screw Cup SC
Cementless screw cup system

Bipolar Cup
Acetabular head for hip hemiarthroplasty

Cemented Polyethylene Cups
Flat-profile and full-profile cemented cups

Reconstruction Shell
Reconstruction ring for larger acetabular defects

Stem system – Bone preservation. For years to come

Locking proximal lateral
tibia plates 4.5 mm

Reconstruction
Plate 3.5 mm

locking distal femur
Plate 4.5 mm

Condylar femoral
Plate 4.5 mm

Locking medial distal
tibia plates mm

Locking proximal
Femur plate 4.5 mm

Locking proximal
humerus plates 3.5 mm

1/3 Tubular plate

Dcp plate

Distal radius T

Curve reconstruction

Calcaneal plates

Clavicle s

Hook clavicle

Cortex Screws
3.5 mm Titanium

Cortex Screws
3.5 mm

Locking Screws 3.5
mm Self Tapping

Locking Screws 4.5
mm Self Tapping

DHS/DCS Nail
Screws

Cannulated Screws
3.5 mm Self Tapping

Double Thread
Compression Screw
Cannulated
